

## Cosmo

## The Rose

Let the steam vaporize  
Make the clouds for us to dream  
There is nothing we can't reach  
Where I go, where you go  
Come too far, far too low  
Never ending galaxies  
There is nothing we can't reach  
Where I go, where you go, go

We keep dreaming  
Even though we're just dust in the air  
We don't care, just feel it  
Even though we know nothing is real universe  
Maybe we are the center of this universe  
Imagine, just maybe

Countless stars  
Everlasting in this cosmos  
I'm Cosmo, we are one  
Endless love is in this cosmos  
We're cosmic fire

Ooh  
Ooh

Countless stars  
Everlasting in this cosmos  
I'm Cosmo, we are one  
Endless love is in this cosmos  
We're cosmic fire
