

## Cure

## The Rose

Imagine if we made peace by peace  
A lot of ups and harmonies  
Everyday we're broken piece by piece  
Need to remedy our minds  
Recover us

Oh  
Clouds paint the naked sky tonight  
Oh  
Dreaming

I just wanna feel the world  
Around me more and more  
Cause everybody  
Fears the one, the one thing they can't cure

Just tear the page  
Spoken parts  
Broken pieces of our hearts

To find a way to heal the world  
Without a single word  
Recover us  
Oh  
Recover us

Over complicating simple things  
All the good things come alive  
Where's the eye to the impulsive kings  
Need to remedy our minds  
Recover us

Oh  
Clouds paint the naked sky tonight  
Oh  
We're dreaming

I just wanna feel the world  
Around me more and more  
Cause everybody  
Fears the one, the one thing they can't cure

Just tear the page  
Spoken parts  
Broken pieces of our hearts

To find a way to heal the world  
Without a single word  
Recover us

Oh  
I just wanna feel the world  
Surrounding more and more  
Cause everybody  
Fears the one, the one thing they can't cure

Lightening and the thunder  
Going under  
Let the rain fall and wash away

To find a way to heal the world  
Without a single word  
Recover us

Oh
