

# Nevermind

## The Rose

Don't care  
About what you say  
About what you do  
I don't care  
I'm careless  
Whatever I say  
Whatever I do  
Never mind

The world keeps moving on  
What's left if you are right  
Who's right if you are left behind  
Running in circles  
The world keeps spinning fast  
Without us side to side  
Fighting just to blur the lines  
Honestly never mind

Don't care  
About what you say  
About what you do  
I don't care  
I'm careless  
Whatever I say  
Whatever I do  
Never mind

The world keeps moving on  
What's left if you are right  
Who's right if you are left behind  
Running in circles  
The world keeps spinning fast  
Without us side to side  
Fighting just to blur the lines  
Honestly never mind

I called out to the stars  
Hoping you'll hear my heart  
Honestly never mind  
I saw you in the sky  
Surrender to the light  
Honestly never mind  
I called out to the stars  
Hoping you'll hear my heart  
Honestly never mind  
I saw you in the sky  
Surrender to the light  
Honestly never mind

I called out to the stars  
Hoping you'll hear my heart  
Honestly never mind
