

I think I need you  
I knew you'd care  
When I first saw you  
I knew it then

I think I love you  
Cause it hurts so bad so bad so bad  
Oh yeah I would die to  
Call you my friend

When you are feeling down  
Stand by my side  
And when I see you sometimes  
I get tongue tied  
Whatever you say goes  
I love you now

I know you need me  
You know I care  
You speak with your eyes  
I can always tell

I know that I love you  
Cause it hurts you too I know I know  
Oh yea we can die for  
All the things we have

When you are feeling down  
Stand by my side  
And when I see you sometimes  
I get tongue tied  
Whatever you say goes  
I love you now

Whatever you say goes  
I love you now
