

Yes

The Rose

I saw you You saw me
□ □□□ [Nun doraga] Sing this symphony
Embrace these memories that we can make
Beautiful feeling

Just walk with me
Side by side sharing our time
You can tell me the stories that you left behind
Help me help you open up your mind
This beautiful feeling

Can we just say yes
Sometimes we gotta let it go
Just say yes
Open your mind go with the flow
Just say yes
Look at the stars and watch it glow
Just say yes (say yes)
Somebody's calling

Can we just say yes
Sometimes we gotta let it go
Just say yes
Open your mind go with the flow
Just say yes
Look at the stars and watch it glow
Just say yes (say yes)
Somebody's calling

Break of dawn
Sun will rise
□□ □□ [Nuneul tteugo]
Sing this harmony
Erase these memories that make us thin
What a beautiful feeling

Just walk with me
Side by side sharing our time
You can tell me the stories that you left behind
Help me help you open up your mind
This beautiful feeling

Can we just say yes
Don't be afraid to dive in
Baby just say yes
I'll be right here beside ya
And if you say yes
Love is on the horizon
Can we finally say yes (say yes)
Somebody's calling

Just walk with me
Side by side sharing our time
You can tell me the stories that you left behind
Help me help you open up your mind
This beautiful feeling

Can we just say yes
Sometimes we gotta let it go
Just say yes
Open your mind go with the flow
Just say yes
Look at the stars and watch it glow
Just say yes (say yes)
Somebody's calling

Can we just say yes
Don't be afraid to dive in
Baby just say yes
I'll be right here beside ya
If you say yes
Love is on the horizon
We can finally say yes (say yes)
Somebody's calling
