

Your Cure

The Rose

Somehow we fell in
And there's no way out
And no way in for any one else

But we've forgotten
What this was all about
And now I've lost you through self doubt

Fate used to be just knowing that I'd always find you
Guess destiny don't always come true
I try to remember how euphoric your skin felt
When I was so sure
That you were my cure

I'm searching for you
But this time maybe
I could be that you've actually lost me

Fate used to be just knowing that I'd always find you
Guess destiny don't always come true
I try to remember how euphoric your skin felt
When I was so sure
That you were my cure

Fate used to be just knowing that I'd always find you
Guess destiny don't always come true
I try to remember how euphoric your skin felt
Fate used to be just knowing that I'd always find you
Guess destiny don't always come true
I try to remember how euphoric your skin felt
When I was so sure
That you were my cure
That I was your cure
That you were my cure
