

Thru That Door

The Rosebuds

I don't want to feel loved on Christmas,
Christmas don't want to come no more
I don't want to feel loved on Christmas,
cause Christmas just went walking thru that door

I don't care who's right or wrong,
I won't try it, even with salt
Silence snows thru the cracks,
it came unglued and it wont go back

I don't want to feel loved on Christmas,
Christmas don't have to come anymore
I don't want to feel loved on Christmas,
cause Christmas just went walking thru that door

No one gets time off from love,
and all these colored lights here burn my eyes right up
You said I loved ya,
I told you that no bodies right or wrong,
and I don't care who's side their on

I don't want to feel loved on Christmas,
Christmas don't have to come anymore
I don't want to feel loved on Christmas,
cause Christmas just went walking thru that door
Christmas just went walking thru that door
