

Time Of My Life

The Rubens

Is it my fault if I'm affected by
Everything I've seen a thousand times
I try
Am I not supposed to do this every night
I hold my breath, waiting for it to change
I take a hit, it's common sense

This could be the time
This could be the time, the time of my life
Everything I need, never satisfied
This should be the time, this should be the time

Is it so wrong if I get jealous
Everything that's good I mess it up
Why
Is it so wrong if I get jealous

This could be the time
This could be the time, the time of my life
Everything I need, never satisfied
This should be the time, this should be the time

Every move, every steps gonna be a mistake
Every room that I run through, dark clouds in my way
If I just choose to get over this pain would the cycle then break
Would the colours all change maybe if I just
Hold my breath
I take a hit, it's common sense

This could be the time
This could be the time, the time of my life (So terrified)
Everything I need, never satisfied
This could be the time, this could be the time (So terrified)
This could be the time, the time of my life
You know I only got one but I always think twice (So terrified)
Hesitation, no trust and a little terrified
Do it on my own, do it cause there is a light (So terrified)
This should be the time, this could be the time
