

Trickle Down Effect

The Rubens

Fortunes favour them
But how can you envy them?
'Cause I ain't got time to spare
On things that nobody needs
Me particularly

It's a trickle down effect
But it won't affect you, my friend
'Cause it'll be me again
Waiting for my time to end
Ooh

Although it flows in my direction
It won't bother me
Although it flows in my direction
I'll just do my thing

I'll solve your problems
All for you my darlin', my darlin'
I'll do it for nothing
Cause that's the guy I'm gonna be
Pleased to meet ya
Pleased to meet ya
Pleased to meet ya

But I don't wanna be that

It's a trickle down effect
(It won't bother me)
But it won't affect you, my friend
(Although it flows, although it flows, I'll just do my thing)
Waiting for my time to end
(Although it flows, although it flows, it won't bother me)
But it won't affect you, my friend
(Although it flows, although it flows, I'll just do my thing)
All for you, my darlin'
(Although it flows, although it flows)
It's a trickle down effect
(Although it flows, although it flows, it won't bother me)
Although it flows, although it flows, I'll just do my thing
Although it flows, although it flows)
