

Do You Ever Think Of Me

The Rubettes

Most every night I get home tired from working
You pick a fight about nothing at all
I've had a belly full of teasing and smirking
And I can't take it like a blind man takes a fall
No I can't take hurting at all

I try so very hard to comfort and please you
And stop the pain inside from showing in my eyes
But all I ever get from you is discontentment
But even though I give exception to your life
I seem to be the one that you despise

Have you ever loved anyone other than yourself
Can you see beyond the mirror on your wall
And the body that surrounds you won't keep you from the shelf
But I can't wait for then for you to call
And have you ever thought that I could be the one you're lookin
g for
Do you ever think of me at all

You'd better count the days that old man time has taken
And hope you find yourself before he comes to call
You were the queen of love whom power has forsaken
And I can't take it like a blind man takes a fall
No I can't take hurting at all

Have you ever loved anyone other than yourself
Can you see beyond the mirror on your wall
And the body that surrounds you won't keep you from the shelf
But I can't wait for then for you to call
And have you ever thought that I could be the one you're lookin
g for
Do you ever think of me at all
