

# Goodbye Dolly Gray

The Rubettes

In the 1914-18 war  
We were never sure  
What we were fighting for  
But we had our orders  
For god and the king in the 1914-18  
The cannons crashed  
The soldiers fell  
It was just like we'd  
Been sent down to hell  
And all was red  
Where once was green in the 1914-18

So goodbye Dolly Gray  
I'll see you another day  
I go to war because I'm told  
That war's the only way  
Auf wiedersehen ich liebe dich  
We'll stand and we will fight  
And all god's children went to war  
Convinced that they were right

And in the trench I saw the foe  
And he looked just like my brother Joe  
He was waving something in his hand  
I thought it was a trick  
So I send him to the promised land  
And the photograph fell from his hand  
Of his wife and kids from his German land  
Oh didn't I feel sick

So goodbye Dolly Gray  
I'll see you another day  
I'm off to fight the foe  
All dressed in glorious array  
If only Tom and Fritz  
Had known about the blitz  
They'd have told them where  
To stuff their war  
And be alive today

So goodbye Dolly Gray  
I'll see you another day  
I go to war because I'm told  
That war's the only way  
Auf wiedersehen ich liebe dich  
We'll stand and we will fight  
And all god's children went to war  
Convinced that they were right

So goodbye Dolly Gray  
I'll see you another day  
I go to war because I'm told  
The war's the only way  
Auf wiedersehen ich liebe dich  
We'll stand and we will fight  
And all god's children went to war  
Convinced that they were right

So goodbye Dolly Gray...
