

# The Way Of Love

The Rubettes

Another day, another night  
Another wrong, another right  
But it's only just the way of love

A little faith, a little hope  
The will to live, the strength to cope  
Yes, it's only just the way of love

Nobody's sure which move to make  
The rules are easy  
You give before you take  
Don't make it hard no need to fuss  
Love belongs to all of us  
One day you're up  
One day you're down  
But don't you worry or wear a frown  
'Cause it's only just the way of love

All of us know we need a friend  
Someone to cling to until  
Our love light ends  
So don't you cry when things are rough  
Love will be there just soon enough  
It's such a joy to be around  
You'll understand it once you have found  
That it's only just the way of love
