

# Face the World

The Rumjacks

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

Darlin, I think you're tellin me something  
But you're not cutting through with these thoughts too loud to sleep  
Oh falling, you're falling over me, falling  
But I'm a wreckloose mess  
With a heart too cold to keep

And all the time we spent at night  
Hoping that we'd be alright  
I bore the cost of saving face  
Til it came to light

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

Darlin, I owe you honesty, Darlin'  
But we're both choking back  
From a pill too tough to take

And now you're balling your eyes out  
And I can't believe that I'm stalling  
But there's a light to this tunnel and you deserve every ray

And all the time we spent at night  
Hoping that we'd be alright  
I bore the cost of saving face  
Til it came to light

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

I wanted to fail  
I wanted to try  
I wanted to face the world outside

I wanted to get out of my mind  
If I could have only kept alive

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive

I wanted to fail  
I wanted to try  
I wanted to face the world outside  
I wanted to get out of my mind  
If I could have only kept alive
