

# Scandal

The Rumjacks

I always knew we'd die in a scandal  
I always knew we'd be okay  
When you were climbing up my window  
I couldn't seem to get away  
And I could give you all my money  
I know you'd give it all away  
When you were climbing up my window  
I couldn't seem to get away

I always knew we'd die in a scandal  
I always knew we'd be okay  
When you were climbing up my window  
I couldn't seem to get away  
And I could give you all my money  
I know you'd give it all away  
When you were climbing up my window  
I couldn't seem to get away

If the night gets cold  
I'd be there like you'd never know  
'Cause it's a tough winter when you got nobody at your side  
Oh and if the north winds blow  
I'll be there by the fire glow  
'Cause even if it's tough, I know we'll figure it out  
Because together we'll be never alone

I always knew we'd die in a scandal  
I always knew we'd be okay  
When you were climbing up my window  
I couldn't seem to get away  
And I could give you all my money  
I know you'd give it all away  
When you were climbing up my window  
I couldn't seem to get away

And all the time that we spend looking back could be burnt in the fire  
Because we never got a chance to tell the story that we wrote  
But they'll think what they want to believe 'cause it's word on the wire  
But let the birds chirp on their fence at home because it's you and me again  
st the world

I always knew we'd die in a scandal  
I always knew we'd be okay  
When you were climbing up my window  
I couldn't seem to get away  
And I could give you all my money  
I know you'd give it all away  
When you were climbing up my window  
I couldn't seem to get away

I always knew we'd die in a scandal  
I always knew we'd be okay  
When you were climbing up my window  
I couldn't seem to get away  
I said I couldn't seem to get away

I always knew we'd die in a scandal

I always knew we'd be okay  
When you were climbing up my window  
I couldn't seem to get away  
And I could give you all my money  
I know you'd give it all away  
When you were climbing up my window  
I couldn't seem to get away  
I said I couldn't seem to get away
