

## Any Other Day

### The Samples

I came back down today,  
Saw the stars up on the wall.  
To me it looked just like any other day.  
Now you're gone,  
I watched you drift into the clouds.  
To me it looked just like any other day.  
And I feel you now, like all the other days;  
Watch them drift into the past, behind us now.  
All but gone away and I hear you now,  
Like all the other days.  
I feel you now, in all other ways.
