

Darkside

The Samples

Sometimes I can be your best friend
So much fun to be around
Even love you till the end
Pick you up off the ground
I've been known to shine a light
And keep it on all night long
Keeping everything so bright
But when the flicker of the candles gone
I have a darkside
I have a darkside
Sometimes I'm the clear sky
On a shiney ocean day
But there're some things I can't hide
When I'm not the month of May
I have a darkside
I have a darkside
I have a darkside
I have a darkside
