

# Shine On

## The Samples

Mother earth  
A big blue marble  
The dancing moon  
The falling sun  
Shine on and on and on  
Shine on and on and on  
Shine on and on and on and on  
Looking down  
From tall tall buildings  
As endless highways  
Drive me to the oceans  
Shine on and on and on  
Shine on and on and on  
Shine on and on and on and on  
Shine on and on and on  
Shine on and on and on  
Shine on and on and on and on  
Through my window  
Or the shadows on the wall  
Over the last known thoughts  
The daylight will  
Open our eyes  
To see the truth  
Years go by  
But you and I will...  
Shine on and on and on  
Shine on and on and on ...
