

# Not Giving Up

The Saturdays

You took my heart from the dark  
I'm falling hard  
With you its like you kill the shade my burning pain

I feel like something starting,  
Starting playing in my head  
And its beating loud  
I feel like something starting,  
starting walking on the edge  
'Til we're crashing down

Hit me so hard I don't know where  
Starstruck up in the air  
Got me got me with my eyes wide open  
If you tell me no I'm not giving up no  
If you tell me no  
I'm not giving up  
No never giving up  
Not giving up on love  
Oh, oh, oh, oh, oh  
You're under my skin  
Just stay right there  
I want you there  
Let the rest fade away  
It's just you and me  
What was meant to be

I feel like something starting,  
Starting playing in my head  
And its beating loud.  
I feel like something starting,  
Starting walking on the edge  
'Til we're crashing down

Hit me so hard I don't know where  
Starstruck up in the air  
Got me got me with my eyes wide open  
If you tell me no I'm not giving up no  
If you tell me no  
I'm not giving up  
No never giving up  
Not giving up on love  
Oh, oh, oh, oh, oh  
Got me on overload  
I'll be your rock of gold  
Can we get overdose on love  
Oh, oh, oh, oh, oh  
Hit me so hard I don't know where  
Starstruck up in the air  
Got me got me with my eyes wide open  
If you tell me no I'm not giving up no  
If you tell me no  
I'm not giving up  
No never giving up  
Not giving up on love  
Oh, oh, oh, oh, oh [2x]
