Don't Let Me Down

The Saw Doctors

does'nt matter what you say or do
i'll understand you anyway
'cos i've known you so long
if you leave me in the morning light
i won't be sad but i won't feel right
the choice is up to you

well i want you to do what you think is best
please don't turn out like the rest
time is movin' and we must be goin'
back to our home
to where we first met
seems like a long time ago
we were young and playin' on the road
we never thought life would change this way
