Macnas Parade

The Saw Doctors

The streets were black with people twas the finest day so far
All watching for the creatures
On their way to Noah's arc
She came hoppin' she came dancin'
Near the head of the parade
Twirling an umbrella
And singing about the rain
I saw her in the Macnas Parade
Singin' and dancen' as the drummers played
Hoppin' and skippin' sure
She made my day
I saw her in the
Macnas Parade
All the gang were rushing
To board at claddagh basin
There were preachers preaching
"Please repent"
and even snails were racin'
god watched it from above
A handshaped cloud
descended from the sky
Nothing that i saw was
More pleasing to my eye
I saw her in the Macnas ....
I saw her in the warick
The first Friday last week
I tried to ask her dancin'
But i could hardly speak
I wonder what they'll think up
For the big parade next year
I'll tell you wan thing
That's for sure
I'll be a volunteer
