

# Bombananza

The Scabs

When I saw you down at the lido  
It was a hot Saturday night  
You were on fire and I was burning up  
But just one look from you  
And I knew it would be alright

It was the Bombananza

Yeah yeah

The Bombananza

Oh oh

It was the Bombananza

Yeah yeah

Well the moon was in the ocean  
But the stars were in your eyes  
I thought my heart was lost forever  
But just one kiss from you  
And you brought it back to life

It was the Bombananza...

Some call it love some call it amore  
That feeling that comes all over you  
When your heart has come together  
With someone else's heart  
And it'll never come unglued

That's the Bombananza...

When she sees you and you see her  
And its love. Love at first sight  
And your heart goes pitter-patter

It goes boom boom boom boom boom

Boom all through the night

That's the Bombananza...

When the earth begins to tremble

And the ground begins to shake

And your heart's so filled with wonder

when it's so filled with love

That you think the thing might break

That's the Bombananza...
