

# Walk This Town

## The Scene Aesthetic

You're getting sick and tired  
of being bossed around and gettin' told what to do  
you're uninspired  
as the words that they are sayin' start to get to you

you've got a big, big heart  
and you share it with the world but they don't share with you  
you start crying now  
'cause you can't understand why anyone could be so cruel  
but soon they'll start to get it

and we will walk this town,  
our fears that everyone will come  
knocking down our dreams  
but we won't let them  
we'll sing oh oh no  
yeah we'll keep singing baby no they won't

we will walk this town,  
our fears that everyone will come  
knocking down our dreams  
but we won't let them  
we'll sing oh oh no  
yeah we'll keep singing baby no they won't

I love the things you say  
when you're talking to someone you think has lost their way  
you've got the perfect smile  
that has driven every boy in town to all go wild  
I still wish that you'd believe in you as much as you believed in me

we will walk this town,  
our fears that everyone will come  
knocking down our dreams  
but we won't let them  
we'll sing oh oh no  
yeah we'll keep singing baby no they won't

we will walk this town,  
our fears that everyone will come  
knocking down our dreams  
but we won't let them  
we'll sing oh oh no  
yeah we'll keep singing baby no they won't

I look in your eye  
and I can tell that you're disappointed  
I've got a feeling inside  
and I know we're gonna break right through this

we will walk this town,  
our fears that everyone will come  
knocking down our dreams  
but we won't let them  
we'll sing oh oh no  
yeah we'll keep singing baby no they won't

we will walk this town,  
our fears that everyone will come  
knocking down our dreams  
but we won't let them  
we'll sing oh oh no  
yeah we'll keep singing baby no they won't
