Fall For Me

The Score

I've been seeing ghosts in my head
Trying to understand why you left
You said I'm not who I was then
Guess I missed the signs in the end

You left without saying goodbye
Just a note with my name on the line
You said this city's too cold
And it's not what you want anymore
So, I'm writing to tell you

It's too cold in winter
And it's too wet in spring
Yeah, it's hot here in summer
But come fall for me

And it's not California
I know you're missing the breeze
And you can't change the weather
But you can fall for me
Yeah, you can fall for me

I've been losing sleep in this bed
Staring at these four walls again
Replaying your words in my head
Trying to find the reason you left

You left without saying goodbye
Just a note with my name on the line
You said this city's too cold
And it's not what you want anymore
So, I'm writing to tell you

It's too cold in winter
And it's too wet in spring
Yeah, it's hot here in summer
But come fall for me

And it's not California
Oh, I know you're missing the breeze
And you can't change the weather
But you can fall for me

It's too cold in winter
And it's too wet in spring
Yeah, it's hot here in summer
But come fall for me

And it's not California
Oh, I know you're missing the breeze
And you can't change the weather
But you can fall for me
Yeah, you can fall for me
Come fall for me
