

Fighting For

The Score

We are the same underneath our skin
We all got demons that we hide within
Some nights we all feel broken
Some nights it all feels hopeless
Yeah
Just know you're not alone

Oh, I'm dying to believe
It's more than just a dream
I'm ready to go to war
I know what I'm fighting for

Oh, I'm dying to believe
This voice inside of me
I'm ready to go to war
I know what I'm fighting for

Oh, I'm dying to believe
It's more than just a dream

I'm ready to go to war
I know what I'm fighting for

We look for faith in an empty sky
But deep down our strength's always born inside
Drown out the voices calling
Stand tall to keep from falling
Yeah
Just know you're not alone

Oh, I'm dying to believe
It's more than just a dream
I'm ready to go to war
I know what I'm fighting for

Oh, I'm dying to believe
This voice inside of me
I'm ready to go to war
I know what I'm fighting for

It's more than just a dream
I'm dying to believe
I'm ready to go to war
I know what I'm fighting for

I'm dying to believe
It's more than just a dream
I'm dying to believe
I'm ready to go to war
I know what I'm fighting for
