

# Going Home

The Score

You can't know up till you've been down  
You can't take off tied to the ground  
You can't live days scared of the night  
And if it's dark don't mean there's no light

But in the silence, we can make a sound

Everyone wants  
Everyone needs  
Looking for something to believe  
When we get close, everyone knows  
Feels like we're going home  
Everyone wants  
Everyone dreams  
In the end love is all we need  
When we get close, everyone knows  
Feels like we're going home

Feels like we're going home  
Feels like we're going home

You can't know love till you know pain  
You can't feel pride till you feel shame  
Cause love's one thing you can't pretend  
And desperation's not your friend

But in the silence, we can make a sound, oh

Everyone wants  
Everyone needs  
Looking for something to believe  
When we get close, everyone knows  
Feels like we're going home  
Everyone wants  
Everyone dreams  
In the end love is all we need  
When we get close, everyone knows  
Feels like we're going home

Feels like we're going home  
Feels like we're going home

(When we get close, everybody knows)  
When we get close, everybody knows  
(Feels like we're going home)  
Feels like we're going home

(Feels like we're going home)

Feels like we're going home
