

Good To Be Alive

The Score

No more running from mistakes
No more running from my demons
I've been trying to catch lightning
Searching for meaning

It's a long dark road tryna make it on your own
And there's snakes everywhere ya go
No more living in the past 'cause that was last season

My visions looking crystal clear
No fear, no fear
Bless my soul I'm standing here
Made it out from the bottom and I came out the other side
Damn, it feels good to be alive

It feels good to be alive
It feels good to be alive

I don't won't wanna waste a moment lost in the shadows
I dream big, swim deep, my sea's never shallow

It's a race against the clock, tryna make it to the top
It's dangerous game to play
But I ain't ever gonna stop this ride, never let go

My visions looking crystal clear
No fear, no fear
Bless my soul I'm standing here
Made it out from the bottom and I came out the other side
Damn, it feels good to be alive

It feels good to be alive
It feels good to be alive
