

# In My Bones

## The Score

So tired of comparisons  
Tryna learn the lesson in  
Falling every time that I do  
The chemicals inside my brain  
Never let me feel the pain  
Pushing me to see the truth

My heart is like a hand grenade  
Pull the pin and detonate  
Ready, set, I'm 'bout to blow  
Cause all the hate you ever spewed  
Made me into something new  
Sit back and enjoy the show

It isn't in my words  
'Cause they come and go  
But everything that hurt  
Taught me how to grow  
It isn't in my skin  
Or these scars that show  
'Cause my fight within  
Comes from below

I feel it in my bones!  
I feel it in my soul!  
I feel it in my—

I ain't gonna break  
I'ma make you wonder  
Rolling in the deep  
Can't steal my thunder  
Ay, oh, I know  
I feel it in my bones!

I won't be a grain of sand  
Slipping down the hour glass  
Watching every minute fall through  
I will pay the price  
Never satisfied  
I'm never gonna be refused

It isn't in my words  
'Cause they come and go  
But everything that hurt  
Taught me how to grow  
It isn't in my skin  
Or these scars that show  
'Cause my fight within
