

# Pull The Cord

## The Score

I've been trying to break away  
Free myself from yesterday  
Nothing's gonna hold me down  
Tired of this static noise  
Think it's time to make a choice  
Let go of the old me now

Fighting all the monsters hiding under my skin  
They try to kill my confidence but I'm still standing

So pull the cord  
I'm back to life  
A switch is tripping in my head  
So pull the cord  
It's paradise  
A switch is tripping in my head

Pull it, pull it out  
You're not the same now  
Pull it, pull it out  
You're not the same now

Dreaming but I never sleep  
Something's taking over me  
Got this madness in my brain  
Let go of the insecure  
Showed my demons to the door  
Nothing's standing in my way

Fighting all the monsters hiding under my skin  
They try to kill my confidence but I'm still standing

So pull the cord  
I'm back to life  
A switch is tripping in my head  
So pull the cord  
It's paradise  
A switch is tripping in my head

Pull it, pull it out  
You're not the same now  
Pull it, pull it out  
You're not the same now
