

## This Beating Heart

### The Score

Hold your head close to the ground  
So you can hear my voice as it starts to sound  
Can you feel it now, you feel it in your veins  
'Cause I feel it now, I'll never be the same

Hear these words what I sing is true  
Every note I write, I write them for you  
Can you feel it now, you feel it in your veins  
'Cause I feel it now, I'll never be the same

Just settle down this beating heart  
And hold me close right from the start  
You set my world on fire but I can't explain  
There's no light to guide me if you're not the flame  
Just settle down this beating heart

Hear these words, what I sing is true  
Every road I take, it leads me to you  
Can you feel it now, you feel it in your veins  
'Cause I feel it now, I'll never be the same

Just settle down this beating heart  
And hold me close right from the start  
You set my world on fire but I can't explain  
There's no light to guide me if you're not the flame  
Just settle down this beating heart

Yeah, just settle down this beating heart  
And hold me close right from the start  
Oh, you set my world on fire but I can't explain  
There's no light to guide me if you're not the flame  
Just settle down this beating heart
