

# Victorious

## The Score

(Victorious, victorious)

Monster in my head, time to write my scripture  
Tear into my heart need to paint a picture  
Praying that my faith won't let me down

Cut into my soul, there's a world wide open  
Look up at the stars trying to find my moment  
Push it til I break, or the clock runs out

'Cause we don't hide  
We don't, we don't cry  
We don't, we don't die out

I just wanna be victorious  
Doesn't matter what my story is  
Even when the darkness shines  
I'm not gonna lose this fight

I just wanna be victorious  
Fire in the flames it's glorious  
Even when the darkness calls  
I'm not gonna lose it all

I just wanna be victorious-us-us  
Victorious-us-us

Bury me alive with the beasts and demons  
Gotta walk through fire to know what you believe in  
Rise up from the smoke and the ashes now

Yeah 'cause we don't hide  
We don't, we don't cry  
We don't, we don't die out

I just wanna be victorious  
Doesn't matter what my story is  
Even when the darkness shines  
I'm not gonna lose this fight

I just wanna be victorious  
Fire in the flames it's glorious  
Even when the darkness calls  
I'm not gonna lose it all

I just wanna be victorious-us-us  
Victorious-us-us  
Victorious-us-us  
Victorious-us-us

Victorious, victorious  
Victorious, victorious

I just wanna be victorious  
Doesn't matter what my story is  
Even when the darkness shines  
I'm not gonna lose this fight

I just wanna be victorious  
Fire in the flames it's glorious
