Figure It Out

The Screaming Jets

You never seem to get it right the first time
Oh yeah but you gotta get it right before you due All around th
e world of

institutions and new religions.
Gotta fear the blinkers from your eyes.
Well it is natural you gotta block out your solution.
Is it your right to refuse your right to care.
Is this one of the things that you refuse to dwell on.
Your just gonna beat around the bush.
Vanish in your lies.
What if it's the bed you have to lie in
What if they can't tell that you've been fighting.
Figure it out, you can't fight it Its dying while you speak.
Figure it out, don't block it out.
Wrap your mind up in a suitcase and hit the track.
Such a long way down, you'll never get back. Build your life a
castle not

you're throwing it all away.
That was your life you lived it yesterday.
What it it's the bed you have to lie in.
What if they cant tell that you've been fighting. Figure it out
you can't

fight it Its dying while you sleep.
Yeah figure it out, don't block it out.
What I really want, what I really wants you to love me
Do you love me.
What I really want, what I really wants you to hate me.
What I really want is you to help me
What I really want is you to break me.
I said what if its the bed that you gotta lie in. What if its t
he very

same bed that I've gotta die in.
Figure it out, you can't fight it
Its dying now you're crying.
Figure it out, don't block it out
Its your life and the times we're living in.
