

## In & Out

### The Screaming Jets

You're like a diamond, healthy and wealthy when you're cut through

Like the ocean calm and mild until you let it all loose

I'm learning a lot about you

I'm learning a lot about yesterday

There's not a lot I can do if you don't want me too close to you

The first thing I remember, we were heading for the sun

The next thing I can tell you

I'm in and out with you, I'm in and out

I'm the liar in your eyes that wants to burn you

But my desire has never been to hurt you

I'm learning a lot about me

And I'm learning a lot about all the things I need

There's not a lot I can do

If you don't want me too close too you

The first thing I can tell you

I was walking on the moon

In a blinding flash it all ended

But it was over far too soon

I'm in and out with you

I'm in and out with you

I'm in and out

I'm in and out with you

Said I'm in and out with you

Yes I am in and out with you

You got me in and out
