

## Inside Out

### The Screaming Jets

Got a flash for the beaten down, well, I pass it around  
Stumble through your worst of days and still you pay  
Hand on heart, gotta beg for another favour, it's a gentle savour  
and I got no doubt  
Of the one who could save today

Don't treat it like a common occurrence, that happens everyday  
You might end up with all that you wanted

Everybody get a crew with there, until there's no one there  
Drive all night, heading somewhere and getting nowhere, get there soon  
What's good for you, don't mean it's good for me  
Still I try to get a grip on everything you say to me

Don't treat it like a common occurrence, like it happens everyday  
You might end up with all that you wanted, still you can't find  
your way

Start at the start, end at the end, take a look outside to see  
the wheels turning  
Dream of a life, a life that's a dream, it won't happen twice  
and it's not what it seems

If this is what today's like, it's gonna be a long life, I hate  
to be the one responsible  
If this is what they call life, I'd hate to see what hell's like

Ooh, woe  
Live your life without regret, it's not over yet, it's gonna be  
a long time

Don't treat it like a common occurrence, just like it happens everyday  
You might end up with everything you wanted, and still you can't  
get your way

Start at the start, end at the end, take a look outside to see  
the wheels turning  
Dream of a life, a life that's a dream, it won't happen twice  
and it's not what it seems

Start at the start...  
Take a look outside to see the wheels turning - take a look around  
Dream of a life...

If this is what they call life, I'd hate to see what hell's like  
It's not what it seems  
If this is what today's like, today's like, it's gonna be a long  
life, long life
