

Knock Knock

The Screaming Jets

Don't come around here knockin', go away from my door
Don't come around here knockin', don't want this anymore
Just turn around and take your good intentions, learn today
Don't come around here knockin', turn and walk away
Just walk away

Don't come around here knockin' and don't bother wipe your feet
Don't come around here knockin', 'cause I know where you lost the key
Don't come around preachin' with your head in your hands
You might think you're winnin', but I'm still a better man
A better man

Don't come around here knockin', I won't hear a word
Just listen to yourself, now what you're sayin' is so absurd
Don't come around here knockin', knockin' down my door
Excuses, transparent lies, I've heard it all before
So don't come around
Don't come around
Don't come around
So don't come around

Don't come around here knockin', I won't hear a word
Just listen to yourself, now what you're sayin' is so absurd
Don't come around here knockin', you've lost your way
No, you and me ain't rockin', you threw it all away

Too many broken promises, well, you had your chance
Don't come around here knockin'
