Smack in the Mouth

The Screaming Jets

Biting on a bullet, you're going for broke
A cliche? Ha, you don't say!
We're still looking for some bastard to repay
Go hard or go home, or go where to loan
It's a one way street, yeah, the race is on
If you ain't gonna piss better get off of the pot
Try to laugh it off, is that the best you got?

No guts, no glory - same old story

Smack in the mouth like a lightning shot
Spit out your teeth in the parking lot
You never know where you stand till you're standing on the spot

Smash it up and grab it and reach for the sky
High shot - why the fuck not!?
Laughin' off, is that the best you got?
I'm taking no prisoners, telling no lies
I'm taking a break from your stupid alibis
And like a drunken fool with a loaded gun
You better let the wild boys run!

No guts, no glory - I'm gonna tell you a story

Smack in the mouth like a lightning shot
Spit out your teeth in the parking lot
You never know where you stand till you're standing on that spo
t

No guts, no glory...

Smack in the mouth like a lightning shot
Spit out your teeth in the parking lot
You never know where you stand, you never know just where you s
tand
Until you're smacked in the mouth like a lightning shot
Spit out your teeth in the parking lot
You never know what you can take until you got that shot
Till you got that shot
You're gonna cop that shot
You're gonna cop that shot
