

Won't Stop You

The Screaming Jets

There are times I should just shut my mouth
Lots of lines I could leave out
Wastin' days screamin'

I'm finding comfort in strangers
A kind anonymity
Do you believe in what you can see

You can think what you like - I won't stop you
I don't always get it right - I sure would like to
You always see what you want - and I can't stop you
You can think what you like - but I sure would like to

She came in smell with her cigarettes and incense
I fell right in
A modern mix of methadone music
My head caved in
Want to go and run through my door

Spend all my time, gotta find a reason
Is there an answer to why
I can change with the seasons
Do you think I should try

You can think what you like - I won't stop you
I don't always get it right - I sure would like to
You always see what you want - and I can't stop you
You can think what you like - don't think it's all about
Maybe tonight I'll get it right - it's all about you
You can think what you like - well, I won't stop you

No, I can't stop you
Sure would like to
