

# Hurricanes

The Script

Neither one of us is getting out of here alive  
Both of us are stranded and we won't make it back inside  
The whole world is blowing away  
We just watch it pass us by  
Yeah, it swept up both our  
Feet when we meet in the northern sky

Like thunder and lightning go in the one  
Together we make the perfect storm  
You're like the wind, I'm like the rain  
Together we both make hurricanes  
Hurricanes  
Hurricanes  
Hurricanes  
Hurricanes

We're heading towards each other at 150 miles an hour  
Knocking us off course with the force once you feel the power  
We're tryna get away, tryna clear the path  
From everything we buried in the aftermath  
Swell like a super cell, raging getting louder and louder

Like thunder and lightning go in the one  
Together we make the perfect storm  
You're like the wind I'm like the rain  
Together we both make hurricanes  
Hurricanes  
Hurricanes  
Hurricanes  
Hurricanes

On my own I'm just another cold rainy day  
Waiting for the wind to come along and take me away  
But she's just a breeze on a sunny day  
Unless the two of us together  
Man, we're blown away

Like thunder and lightning go in the one  
Together we make the perfect storm  
You're like the wind I'm like the rain  
Together we both make hurricanes  
Hurricanes  
Hurricanes  
Hurricanes  
Hurricanes

Away hurricanes away hurricanes
