

## Falling Is Easy

The Seahorses

Shadows of the clouds drift across the ground  
And I'm wondering if you're looking up at me  
Falling is easy when you haven't got the time  
For terminal velocity

Holding my breath  
Is something I did best  
You should see the depths I've been  
Half scared to death  
The other half such a mess  
This morning I was clean

It's such a long way down  
Now that I'm falling  
When I should be hanging round  
What did they do wrong?  
When you look up high  
You look up to the sky  
Just ask yourself why  
You're waving goodbye  
You're waving goodbye

Lately I have found  
Forever looking down  
Is going to be the death of me
