

## Bear With Me

The Secret Sisters

I find it hard to find you  
You're a thousand miles away  
I'm tired of touching, tired of talking  
And I'm out of words to say  
Will you hold on for a little longer?  
Will you hold on?  
Will you try to stay?

Baby, bear with me  
I'm a stranger in my skin  
Baby, bear with me  
Till I know myself again  
Baby, bear with me

I find that I still like you  
When the quiet settles in  
I remember how I loved you  
When you and I were just friends  
Will you hold on for a little longer?  
Will you hold on till I find my way?

Baby, bear with me  
I'm a stranger in my skin  
Baby, bear with me  
Till I know myself again  
Baby, bear with me  
Baby, bear with me

I'm not over you just yet  
There is nothing I regret  
Except the time that I'm trading  
The days I feel us fading  
I just need to hear you say  
That we're gonna be okay

And that you'll bear with me  
That you love me in my skin  
And you'll bear with me  
Till I know myself again  
Baby, bear with me  
Baby, bear with me  
Baby, bear with me
