

Same Water

The Secret Sisters

I start on the ceiling
End on the ground
There's no in-between
At least that I've found
On the days I remember
What is always untrue
Looking for a light
That I can hold onto

Balance out my chemicals
And erase my recall
Mind or man or medicine
I have tried them all

So how is everybody doing out there?
Are you spinning round, lost and found
Do you feel it too?
Is there even anybody out there?
We're all drowning in the same water as you

I think I'm going crazy
Nothing is wrong
Except every single thing
That I settle on
In my head I know better
I'm doing alright
But my wings and my weapons
Want to fly away or fight

Balance out my chemicals
And erase my recall
Find the missing formula
That'll rearrange it all

So how is everybody doing out there?
Are you spinning round, lost and found
Do you feel it too?
Is there anybody even out there?
We're all drowning in the same water as you

So how is everybody doing out there?
Are you spinning round, lost and found
Do you feel it too?
Is there anybody even out there?
We're all drowning in the same water as you

We're all drowning in the same water as you
