

Guardian Angel

The Seekers

You and I we've come this far
Through the long and lonely night
You've always been my guardian angel
Always been my guiding light

When the sun was far too strong
When the wind was cold as ice
You've always been my life's oasis
Always been my paradise

You always know the kindest words
Your praise is so sincere
The love I feel inside just grows
Whenever you are near

So thank you for the joy you bring
Thank you for your love each night
You'll always be my guardian angel
Always be my guiding light

The love I feel inside just grows
Whenever you are near
So thank you for the joy you bring
Thank you for your love each night

You'll always be my guardian angel
Always be my guiding light
You'll always be my guardian angel
Always be my guiding light
