

Say You're Mine (Every Cowboy Song)

The Sensational Alex Harvey Band

I can mend your broken heart if you'll only tell me from the start
When you're all alone and blue and you need somebody to be true
If you'll only say you're mine, only say you're mine
I can tell the color of your mind
If you'll only say you're mine

When your whole world turns to dust
And you need somebody you can trust
When the whole world puts you down
And not a true friend can be found

If you'll only say you're mine, only say you're mine
I can tell the color of your mind
If you'll only say you're mine

If you'll only say you're mine, only say you're mine
I can tell the color of your mind
If you'll only say you're mine

If you'll only say you're mine, only say you're mine
I can tell the color of your mind
If you'll only say you're mine
