

Save Me Now

The Servant

The cars I see below the plane
Look just like blood inside a vein

They go pumping their way through the black
I pull down the blind and I lean back
I wonder

What's gonna save me now?

What's gonna save me now?

Roadrunner flickers on the screen

As I slip in

I go pumping your through the black
I pull down the blinds and I lie back
I wonder

What's gonna save me now?

What's gonna save me now?

Could it be people or places I've yet to know

Or crying over feel-good movie shows

Or is just there in the street life down below?

I don't know

Look,

Whatever I think will be wrong

So lets just carry on/off/on

Save me now!

Save me now!!!

What's gonna save me now?

Tell me what's gonna save me now?

Could it be people or places I've yet to know

Or crying over feel-good movie shows

Or is just there in the street life down below?

I don't know
