

## Why Do I Feel

The Shaggs

Sometimes I feel funny  
And bottled up inside  
Then for some reason  
I just start to cry

Sometimes I feel happy  
And overflowing with joy  
Then things change  
And I start to worry

Why do I feel the way I feel?  
Why do I do the things I do?  
Why do I feel the way I feel?

Sometimes I worry over nothing at all  
Sometimes I think life's just a ball  
When life changes and turns the other way  
I try to think of something gay

Why do I feel the way I feel?  
Why do I do the things I do?  
Why do I feel the way I feel?

There are times when I feel sad  
There are times when I feel blue  
What makes me feel this way the most  
Is when I don't know why I do the things I do

Why do I do the things I do?  
Why do I feel the way I feel?  
Why do I do the things I do?

There are times when I feel sad  
There are times when I feel blue  
What makes me feel this way the most  
Is when I don't know why I do the things I do

Why do I do the things I do?  
Why do I feel the way I feel?  
Why do I do the things I do?  
Why do I do the things I do?
