

# Hell Together

The Sheepdogs

I remember  
When life had just begun  
Sitting cross-legged out in the morning sun  
Time is waiting for no man that's true  
You can't run from what's inside of you

Feeling lost in time and we've been through hell together  
Those memories we won't forget  
Feeling lost in time and we won't be round forever  
All I know is we ain't finished yet

Bound together  
We were built to run  
Making me feel just like I was the only one  
I used to think that  
I'd rather be clapped in chains  
Than to walk these streets around here again

Feeling lost in time and we've been through hell together  
Those memories we won't forget  
Feeling lost in time and we won't be round forever  
All I know is we ain't finished yet

I remember  
A love that's more than true  
I close my eyes and I see myself with you  
On the front porch  
Watch the evening rain  
Helps to ease my mind in the twilight of my pain

I remember  
A love that's more than true  
I close my eyes and I see myself with you  
On the front porch  
Watch the evening rain  
Helps to ease my mind in the twilight of my pain

Feeling lost in time and we've been through hell together  
Those memories we won't forget  
Feeling lost in time and we won't be round forever  
All I know is we ain't finished yet
