

# Bones

The Sherlocks

I just wanna ride on the side of whatever you're smoking  
Find out where we're going cos normal's just a thing of the past  
Rip up all the rules cos it's cool and we know what we're after  
Everyone's a winner, you're a sinner if you challenge my views

Can you feel it?  
Can you really?  
Don't tell me lies  
No no

It's written in the stars  
We're going nowhere  
Finding who we are never felt like a process  
What's written in your phone  
Isn't who you are at home  
It's written in the stars  
We're going nowhere  
Who d'you think you are  
Standing up in a protest?  
What's running through your bones  
Is who you are at home

I just wanna ride on the side of whatever you're smoking  
Find out where we're going cos normal's just a thing of the past  
Rip up all the rules cos it's cool and we know what we're after  
Everyone's a winner, you're a sinner if you challenge my views

Can you feel it?  
Can you really?  
Don't tell me lies  
No no

It's written in the stars  
We're going nowhere  
Finding who we are never felt like a process  
What's written in your phone  
Isn't who you are at home  
It's written in the stars  
We're going nowhere  
Who d'you think you are  
Standing up in a protest?  
What's running through your bones  
Is who you are at home, yeah

Oh love, look out for me  
Cos stranger days are coming I believe  
Oh love, look out for me  
We'll walk hand in hand to the river  
And its all just been a dream

It's written in the stars  
We're going nowhere  
Finding who we are never felt like a process  
What's running through your bones?  
It's written in the stars  
We're going nowhere  
Who d'you think you are

Standing up in a protest?  
What's running through your bones?  
It's running through your bones  
What's running through your bones?
