

Chasing Shadows

The Sherlocks

Is anybody over there?
Are you following me
I look into the distance
As far as I can see
You said you had an early night to catch up on your sleep
But I heard you went out last night
You were never off your feet

It's the morning after the night before
I'm on the floor disorientated, dehydrated
Waking up to another missed call
I'm back in the real world
Where everybody lives to work or do they work to live
You're only interested when it's all take without no give
You've got no reason to lie
Just speak your mind cause I'm not fussed
So long as I know where I stand

I'm always chasing shadows
I'm always chasing shadows

Last nights drunken ways got carried away
But it happens all so fast
Till you find yourself stood with your best mate
Reminiscing about the past

Everything seems better
Everything seems so much better
When you're out your tree branching on to anyone who'll agree to disagree
It was the end of the night we'd been told twice we had to leave
Because nothing lasts forever

I'm always chasing shadows
I'm always chasing shadows

Last night drunken ways got carried away
But it all happens so fast
