

Falling

The Sherlocks

I got a burning desire
Just get me out on the road
I put myself in the fire
'Cause you know I couldn't stand the cold
Out on the streets they're laughing
Can someone tell me the joke?
Sometimes I feel like the punchline
And if I am, then I don't wanna know

I'm falling from the sky
I'm holding on for dear life
Calling out for time
While all the world will never know

I'm looking out for the action
I had to swallow the pill
They're tryna get a reaction
But God only knows that they never will
You're only in for the money
But it was inside a bag
It's locked away in a suitcase
With all of the dreams that you never had

I'm falling from the sky
I'm holding on for dear life
Calling out for time
While all the world will never know

I'm falling from the sky
I'm holding on for dear life
Calling out for time
While all the world will never know

I'm falling from the sky
I'm falling from the sky
