

Was It Really Worth It?

The Sherlocks

You're always right
And I'm always wrong
You're always right
And I'm always left
Holding on to the handles of excuses
It seems I'm second best
Your last resort
Your plan B
Ready if what you thought
Wasn't going to let you down
Turns around and let's you down

Oh I've seen that you're looking at me
You have a stone cold eye
But you're looking at me

You think you're right
But don't think twice with someone else
How's it feel to be perfect?
And was it really worth it, all along?

Times flies when you're having fun
But when you fight in a battle that can't be won
It's not right
Take two
You can do what you like
Cause I'm not good enough for you

Oh I've seen that you're looking at me
You have a stone cold eye
But you're looking at me

You think you're right
But don't think twice with someone else
How's it feel to be perfect?
And was it really worth it, all along?
You think you're right
But don't think twice with someone else
How's it feel to be perfect?
And was it really worth it, all along?
All along

You think you're right
But don't think twice with someone else
Oh how does it feel to be perfect?
Was it really worth it
Oh I'd love to stay
But we just keep falling apart
You'll be forever in my heart

You think you're right
But don't think twice with someone else
How's it feel to be perfect?
And was it really worth it, all along?
You think you're right
But don't think twice with someone else
Oh how's it feel to be perfect?

And as it really worth it, all along?

Was it really worth it all along?

Was it really worth it all along?
