

# Won't Stop

## The Sherlocks

Universal, stuck in a circle  
Tryna find the meaning of life  
We're nothing more than moments in time  
Gotta hold on, don't wanna let go  
Reconcile or leave it at the door  
Like it was before

The sun it shines  
You've got nowhere to hide  
So, I said

I won't stop, not giving up on you  
Won't stop, not giving up on you  
Cos where would we both belong in the morning?  
I won't stop, not giving up on you  
Won't stop, not giving up on you  
Cos where would we both belong in the morning?

Raise a toast, be the smiling host  
Even if there's no one there  
A room full of chairs  
But it's nothing more if nobody cares  
Cast a stone, don't be going it alone  
I'll be right by your side if ever you need  
It's easy for me

The sun it shines  
You've got nowhere to hide  
So, I said

I won't stop, not giving up on you  
Won't stop, not giving up on you  
Cos where would we both belong in the morning?  
I won't stop, not giving up on you  
Won't stop, not giving up on you  
Cos where would we both belong in the morning?

The sun it shines  
You've got nowhere to hide  
The sun it shines  
There's time on your side

The sun it shines  
You've got nowhere to hide  
The sun it shines  
There's time on your side

I won't stop, not giving up on you  
I won't stop, not giving up on you  
I won't stop, not giving up on you  
I won't stop, not giving up on you
